JC:P222/MSI/1

n.d. (18th cent.)

Notes (3 sheets) titled "A summary of Spencer's Discourse concerning Prodigies". These are a set of short notes on John Spencer's *A discourse concerning prodigies, wherein the vanity of presaging by them is reprehended, and their true and proper ends asserted and vindicated* (first published 1663). The author of these notes is unknown, but the hand is clearly 18th century. It might have been prepared as an academic exercise by an undergraduate.
